Does Your Child Have Special Health Care Needs?

*Does your child have a medical condition such as a
heart condition, a cleft lip/palate, cerebral palsy,
or a club foot?*

*Does your child have a chronic health problem
such as seizures, hearing loss,
or diabetes?*

*Are you concerned about your child's
development?*

Was your child born prematurely?

Help is Available!

*A Program for Children and Youth
with Special Health Care Needs*

**Maternal and
Child Health**

Available services may vary by location.
This publication is available in an alternative format by request.

Working with Your Child's "Team" of Professionals

Children's Special Health (CSH)

CSH is a program for children who have medical needs beyond routine and basic care. Our goal is to help your child receive the best possible medical care. CSH provides payment for specialty medical care and coordination of care for children with special health care needs.

Maternal High Risk (MHR)

MHR is a program for pregnant women who have needs beyond routine and basic medical care.

Newborn Intensive Care (NBIC)

NBIC is a program for newborns who need special medical care in a level 3 hospital.

Genetics

Genetic Counseling allows clients and families to gain a clearer understanding of inherited/genetic conditions and other birth defects, as well as the risk of recurrence. There is no income eligibility for an appointment.

These clinics are held in: Casper, Cody, Cheyenne, Gillette, Riverton, Rock Springs, and Sheridan.

Children and Youth with Special Health Care Needs

Eligibility: Your child must meet medical, income, residency, and age guidelines.

Covered Services Include:

- Care coordination
 - Specialty medical care
 - Some equipment and medications
 - LAB/X-RAYS related to diagnosis(es)
 - Support services
 - Evaluations to determine diagnosis
- CSH pays only for medical care related to the approved condition/diagnosis.

Conditions/Services Not Covered:

- Acute illness; i.e. colds, sore throats
- Recent fractures/wounds/accidents
- Infections
- Allergies
- Ambulance transport

Care Coordination:

Public Health Nurses (PHN) can help you:

- Learn more about the importance of a "Medical Home" (a doctor to manage your child's care)
- Identify problems and/or solutions
- Learn about your child's medical condition
- Receive important services as close to your home as possible
- Find support in times of stress and crisis
- Advocate for your child

Application Process:

- Call your local PHN or Indian Health Service office (see back for listings) to schedule an appointment to apply for MHR, NBIC or CSH.
- Bring medical and financial records with you to the appointment.
- You will receive a letter notifying you of eligibility or denial for the program.

REMEMBER, YOU AND YOUR CHILD ARE THE MOST IMPORTANT PART OF THIS TEAM!
